### REASONS FOR ALLOWANCE

1. Claims 1-22 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding claims 1, 11, 20, and 21, the closest prior art of record are: Somoza et al. (US 6,336,035), Uhlik (US 6,760,599), and Markus (US 5,561,841). Somoza teaches software tools for simulating the planning and operation of cell sites in a cellular network. Uhlik teaches selecting base station of a radio communication system based on the received signal strength of the broadcast bursts. Markus teaches simulation of an operating cellular network on the basis of statistical data obtained from the network allows an adaptive control of the system parameters. However, these cited references, alone or in combination, fail to teach a histogram for creating timing relationship of base stations in the coverage area; and producing a geographical data base of signal components from plurality of base station towers that are clear of co-channel and adjacent-channel interference.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
